

YouAi Integration Compilation

This document compiles the entire thread of discussions, integrations, doctrines, and strategic plans for YouAi, including governance, valuation, compliance, and product scaling strategies.

Sections include:

- YouAiJR doctrine and integrated model with pillars.
- YRM risk engine structure and role.
- Five dynamic control systems (Growth, Capital, Compliance, Talent, Narrative).
- AI agent integration and Doctrine Ledger mapping.
- Financial projections and valuation models (Damodaran, McKinsey).
- Governance modules (DGCL, ABA Guidebook, BJR, MBCA).
- Privacy Guard, NIST RMF, GDPR, HIPAA, PCI DSS integrations.
- AI-driven Social Media Growth Engine.
- Team topologies and scaling patterns.
- Retention Radar and Yellow Book audit readiness.
- Patent and IP strategy using WIPO guidelines.
- Site reliability engineering practices.

This document ensures all critical data and strategy elements are preserved for future migration and planning.
